If any paper has striven more consistently and cornestly than the Faxa Paiss for a hearty union, forgetting all bygones, of all true men in the ranks of the Union party. Its even property. The resolution instructs the committee on milwas and bow it did it. But when other mapers begin to revive old contests by claiming superior coundness as anti-slavery men, for the members of the old Liberty party, it is proper for us to say that the Whig party of Vermont was always an anti-slavery party : that there were no more consistent and effective opponents of slavery than were to be found in its ranks and among its leaders; and that the only proclical result accomplished by the Liberty party in this State, as such, was the election of a pro-slavery demcerat for Governor. Of course several prominent "Liberty" men obtained office, by the coalition with the democracy; but some of not speak sufficiently for them, we cortainly have nothing to say. Give ne at any time honorable defeat, rather than a mortifying victory.

Is will be noticed that the Times ventures on no specific denial of our statements in reference to the presence of democrats and their notive aid to the Poland ticket in the caucus. If called in question, we are ready to back them by names, feets and figures. For the present it is enough to say that one of the most active partisons of the successful ticket admitted in our hearing that they brought " about fifty new converts" into the republican party that evening. The character of their " new converts," was sufficiently apparent to all who stood around the ballot bax.

The largest, most intelligent community in the State is against Mr. Morrill. — Times.

We would be quite willing to set off any fifty of the intelligent voters who supported Mr. Merrill, in Burlington, or of the worthy yeomanry of the county who gave him such hearty backing in the Convention, for comparison of intelligence with the fifty anwashed "new converts" to the republican party, who seemed the result in this city, which the Times thinks will be so gratifying to Judge Poland. If our neighbor is suited with his side, we certainly are with ours.

We do not propose to descend into a dispute with the Times as to which was the earlier or is the better friend of General Stammard. Let it be us the Times would bave it. However, so much as this is tolerably fresh history. General Stannard was suggested as candidate for Congress, consented to stand and openly authorized such use of his name. He was thus before the people of this district for two months, in which time the suggestion of his name was heartily ondorsed by several papers in different parts of the district and the State, and made steady headway with the people.
